In remembrance of our high school years, we, the Class of 1964, leave our edition of The Key. We have tried to capture the spirit of the class and the school--the spirit exemplified not only by a bonfire at a soccer rally, but also by the everyday activities of the students and faculty. We hope that all those who read this book will discover that spirit which we as a class experienced for six years at Northwestern.

DEDICATION

MRS. FURNESS

The class of 1964 wishes to dedicate this edition of The Key to Mrs. Furness in grateful appreciation of the knowledge, guidance and service she has given us, not only in the field of English, but also in outside areas, particularly dramatics.

PRINCIPAL'S MESSAGE

I congratulate the Class of 1964 upon your graduation from high school. It has not been an easy task. Your diploma would have little meaning if it had been easy. Very little of what will be worthwhile learning or getting in your future life will come easily. You will learn to value highly that for which you work hard and for which you make sacrifices. You will learn also that society gives little status to him who takes the path of least resistance and always looks for what is easy. I hope your education and training have helped you to make wise decisions, and given you the tools and desire to do the difficult and worthwhile.

You have the distinction of being the first class which has spent a full six years in this school, a third of your life so far. The next six years will see you on the precise road which leads you to your place in the world. There will be many forks in that road and you will make many choices, some of which could lead to a dead-end. The ideals and standards you live by will become more and more evident. You may be reviled or revered. You may be reviled when you are right and revered when you are wrong. May you always have strength in adversity and humility in success.
